The Chief Secretary to the
Dewan of Mysore

Sir,

In continuation of this office no 1235/390 Dated 9th March 1885, on the subject of the new Chutram at Arsikere (named after the late Dr Rangacharlu), I have the honor to submit herewith an extract from Proceedings of the Local Fund Board and to solicit orders for the taking over of the Chutram and

Building.

2. It is a most useful public institution, useful to all castes and classes. It meets a great want at Arsikere.

3. It happens that the Chut-ram was built by public subscriptions. But if a single individual had built it the favorable Conclusions under the rules printed at page 195 of the Revenue Manual should have been called for.

4 The cost of the small establi-shment and the small ex-penditure for annual petty repairs, which will be required to be incurred by Government will not exceed the value of the Inam which under the rules

provided

quoted the institution has earned. It is so largely used by the richer Hindu travellers that the need for a kitchen for high caste Hindus at the Travellers' Bungalow is found unnecessary and this is a saving to Government. The more spacious and comfortable rooms may therefore be charged for with a light fee

5. If the institution be taken over some of the establishment at Banawar and Gandasi and Allamuhally Chuttrams can be transferred. But a settlement of the details is possible only if the measure of taking over is approved on General Grounds and sanctioned. —

These are matters which should be settled on the spot by the Collector and the Executive Engineer

6. I beg to add that the question

question is of pressing importance.

To

The Chief Secretary to the
Dewan of Mysore

Sir,

Referring to your Docket, No 521 Dated, 17th May 1887, requesting to be informed, in detail, of the Establishment proposed for Arsikere Chatram, and also enquiring, if I would make it a free feeding institution, like other Aiina Chatrams, I beg to submit that a really good Chatram is very necessary in Arsikere. The importance of the place is well known to the Dewan, and I therefore will not take up any time in reiterating it. I wish, however,

to point out that it is 16 3/4 miles from Tiptur, and 24 miles from Kadur. To travellers from Kadur to Tiptur Arsikere will be too far away, and it will be a difficult stage. Likewise Banawar, where also is a Chatiram, will be an inconvenient stage from Tiptur side. Therefore, I am of opinion that Chatrams at both these places are very necessary. I paid visits to both these places recently, and the residents of Banawar strongly represented the necessity of revival of feeding in that Chatiram. The very small number of well-to-do people settled in Banawar, urged that every day without fail many travellers arrive at that place just at meal time, and that in consequence of the Chatiram being closed, the drain on their resources is

Distances are :— 16 3/4 mls from Tiptur to Arsikere & 26 1/4 mls from Tiptur to Ban

more

more than what they can bear I mention this circumstance simply to bring to notice that there are not many rich and charitable persons in Banawar, and that if it were the case, the revival of feeding in the Chatiram, may not be felt as such a pressing necessity as it now actually is. The question will necessarily arise, how to make provision for both of these. I beg to submit a statement which shows ways and means of how both these Chatirams can be maintained. The allowance for a second class Anna Chatiram is as given in the margin*: details of Establishment are also given. A total sum of Rs 36-15- could be set apart for Arsikere Chatiram without trenching on the allowances of Banawar Chatiram to such an extent as would —

Establishment	Cost.

Total	41	11	-

We expect

necessitate its abolition. There has been a proposal to sanction Establishment charges from Local Funds. Vide para 4 of Proceedings submitted with this office No. 69 Dated 6th May 1887. I would submit this proposal for favorable consideration. The money shown in the statement as possible to set apart for Arsikere from curtailment of Tasdiks of Gundasi and Bilé Chatrams, may, in the alternative of the Local Fund paying for the Establishment, be solely appropriated for feeding purposes. I append a scale of establishment which in my opinion would suffice to be maintained in all these Chatrams.

In short I beg to submit that:—

(1) A good feeding free anna chatram is necessary at Arsikere.

(2) It should be established without interfering with the Banawar Anna Chatiam

(3). This is pofible from curtailment of allowances as shown in propofition statements submitted.

(4). Such curtailments would not seriously affect any existing Chatiam.

Considering the importance of the place, a fresh grant from Provincial Nuzroji Sources might be made. If not from thase, at least, such a charge might be made against the Local Funds. Should either Course be not feasible, it will yet be pofible by an adjustment of Grants in this District to establish and maintain this new Anna Chatiam.

I beg to observe that feeding in Banawar was suspended —

temporarily

temporarily to meet Cost of repairs found necessary. After the required amount was saved for repairs, the feeding was indefinitely postponed in pursuance of Dewan's Proceedings, No. 2639/138, Dated 11th July 1882. This order has not taken effect elsewhere, and there is no reason that this Batticotta Banawar, should be singled out and treated exceptionally. As its suspension is at present a great hardship to travellers, I beg that early orders may be issued for Commencing feeding at once in Banawar Chat-ram and for the establishment of a new Anna Chatram in Nesikere.-

I have the honor to be.

Sir,

With reference to your docket

Chabutra proposed to be opened at
Government Cost at Hoshkeni, I have
the honor to state that from the enclos

it would be seen that the old
building used as a Chabutra
constructed at Government C
was built at the expense of
Muldar) Shobala Ror w
possession of the building.

2. The realizations

Chatter now proposed to be taken over by Government for opening a feeding institution amounts to Rs12 (as an average) by renting a portion of the building. The cost of menial servants entertained to watch the building area amounts to Rs 8 which has to be met from the rents realized leaving a net income of Rs4 to the credit of the Chattram.

3. The Tahsildar's report with detailed memo of Receipts and Charges of the Ranga Chetty's Chattram is submitted in original for needful reference. But I am inclined to think that this rent must be calculated upon as a permanent income, as it is at present only obtained on account of numerous temporary residents are staying there on account of Quarry works.
